Boat Building Materials & Ideas: The question is often asked: recycled, or recyclable? It's both! We know you will be buying duct tape/nails etc. which will be new, but if, for the most part, the boat itself can be of recycled/recyclable materials that is what we're looking for. Recycled: something that was already used for something else (old air mattress, Styrofoam, wood etc.), Recyclable: something that can be used again or recycled after being used as your boat (plastic coroplast sign, milk jugs, crates, the boat itself used year to year!). The big thing is no boat kits and no motors!

Theme: You can pick any type of theme you want. The crazier the better!

Prizes are awarded to teams for: Best Team Spirit, Quickest time
